Rubaiyat

Plant Pat. No. 758

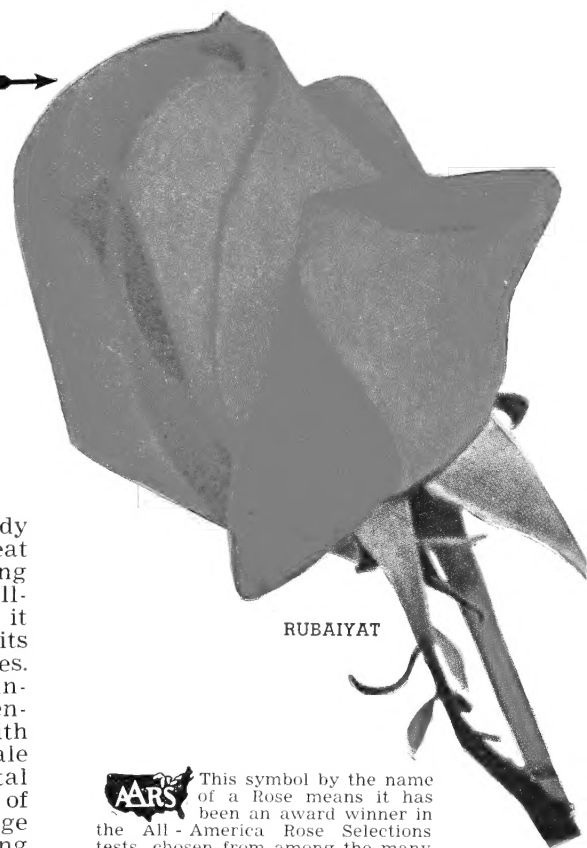

This rosy cheeked Irish beauty of the McGredy strain was named for Omar Khayyam's Rubaiyat. The long shapely bud is a scintillating rose-red. The extra large flowers have a delightful damask-rose fragrance and plants grow tall and robust. It has its best color in cool climates, warm weather turning the open blooms to a deep pink. \$2.00

Peace

Plant Pat. No. 591

This glorious Rose has already been acclaimed one of the great Roses of all time. Highest scoring Rose ever judged in the All-American Rose Selection tests, it is almost unbelievable in its beauty, size and lasting qualities. The buds are golden yellow daintily edged with vivid pink opening slowly to large blooms with delicate shades of yellow, pale gold, cream and ivory, each petal with a lightly ruffled edge of pink. The plant is just as large and fine as the blooms with long strong stems and a mass of vigorous, healthy and abundant foliage. \$2.00

RUBAIYAT

This symbol by the name of a Rose means it has been an award winner in the All-America Rose Selection tests, chosen from among the many entries of new roses judged with it in a 2-year, wide-spread test.

PORTLAND ROSE NURSERY

OFFERS YOU

100 of the World's Finest Roses for 1949

MIRANDY

PATENTED BUSH ROSES

Mirandy

Plant Pat. No. 632

Along with its rich color, the most extraordinary feature of this Rose is the marvelously delicious damask fragrance. The big ovoid buds are rich red with black shadings, opening to many-petaled flowers of lovely chrysanthemum-red. It is best in warm weather, not always opening perfectly in cool foggy climates. \$1.50

Show Girl

Plant Pat. No. 646

Amazingly long, lovely, pink buds, perfect for cutting, characterize this new Rose. The color is a rich deep phlox-pink, deeper in the spring. It will be one of the strongest plants in your Rose garden, upright, branching freely, and always coming up with those marvelous buds. Just enough fragrance to give it character. \$1.50

SHOW GIRL

Nocturne

Plant Pat. No. 713

This new red Rose has long, perfectly formed buds. Color is bright cardinal red with deeper shadings. Flowers are fragrant, full petaled and of good substance, long lasting, and produced on long strong stems. The plant is vigorous and of rapid growth, with abundant, semi-glossy foliage. **\$2.00**

Rex Anderson

Plant Pat. No. 335

An outstanding exhibition Rose, perfectly formed, slow-opening, one of the very few successful whites. Its fully double flowers may be grown to enormous size by disbudding. Good form of the usual McGredy standard. The plant is very vigorous, with handsome, dark green foliage. **\$1.50**

NOCTURNE

Grande Duchesse

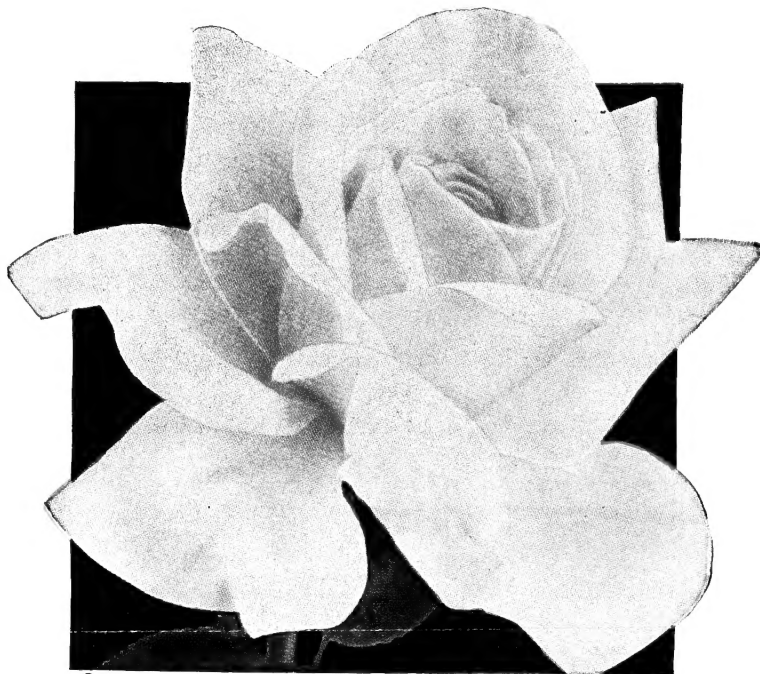

Charlotte

Plant Pat. No. 774

This aristocrat provides a new shade of red in Roses, a strikingly beautiful color such as is seen sometimes in old tapestry. The long, streamlined buds are a burnt-carmine shade and open to firm-petaled blooms which do not fade but gradually change to a lovely begonia-rose. When un-

folding, the 25 petals recurve to make a delightfully informal, artistic flower with a hint of carnation fragrance. The plant is a tall, upright grower and the foliage shows good resistance to disease. Fine for cutting. **\$1.50**

© J. & P. CO.

REX ANDERSON

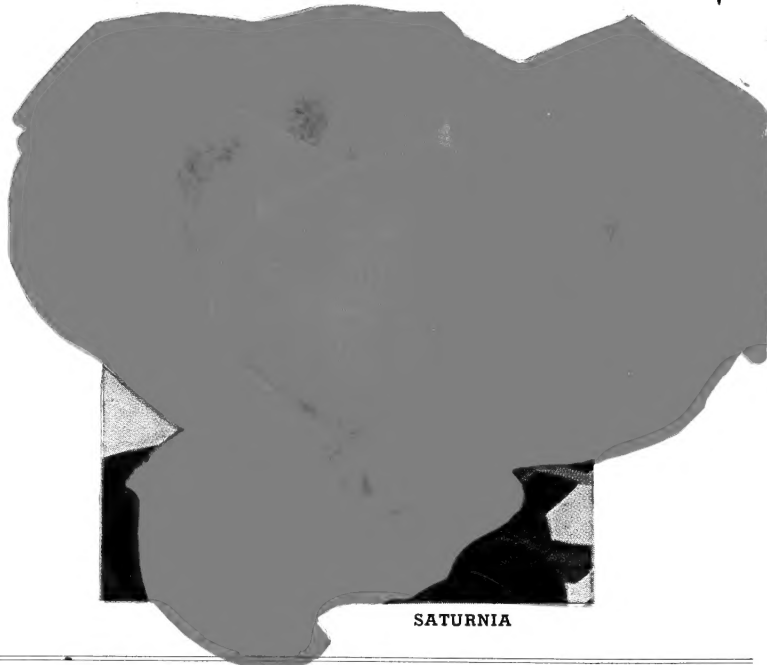

Saturnia

Plant Pat. No. 349

Glorious, with 20 flame-wrought petals casting their spell of enchantment. The face of the large petals is a brilliant cardinal-red while the reverse is a salmon-yellow and copper, creating a warmth of tone difficult to describe—still more difficult to forget. This stunning masterpiece contributes so much to the array of colors in a Rose garden. **\$1.50**

Grande Duchesse Charlotte

SATURNIA

McGredy's Salmon

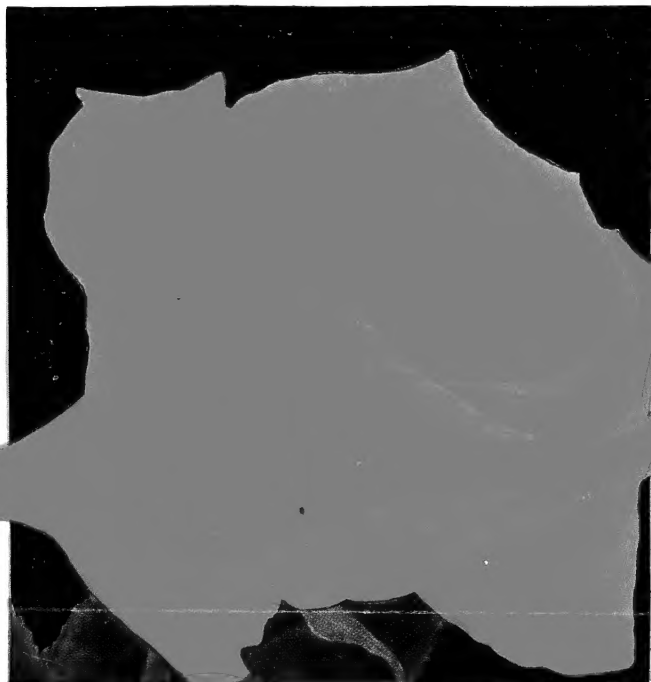

Plant Pat. No. 410

The delightfully fragrant flowers are a beautiful shade of apricot-pink and are produced bountifully on a sturdy, vigorous bushy plant. Full dark green foliage. A distinct addition to the McGredy group of garden Roses. **\$1.50**

McGredy's Sunset

Plant Pat. No. 317

The varieties which bear the name of the famous Irish Rose grower are invariably fine. "Sunset" is at its loveliest when it is fully opened. Then the clear yellow petals are beautifully flushed, revealing their sunset colors of yellow, orange and scarlet. Hot weather and intense sunlight do not trouble this Rose. A beautiful fragrance all of its own. **\$1.50**

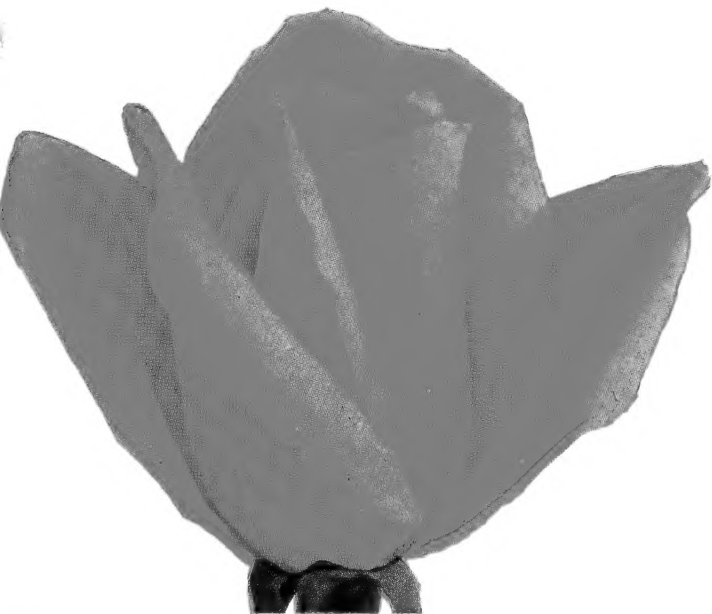

MCGREDY'S SUNSET

Pearl S. Buck

Plant Pat. No. 423

Here is the gleaming gold of pirates' treasure portrayed in blooms of matchless beauty. Exceptionally long-lasting, with tall, straight stems and lovely fragrant exhibition blooms. Buds are a rich orange hue, long-pointed, opening slowly to soft gold suffused with apricot. Leathery dark green foliage. **\$1.50**

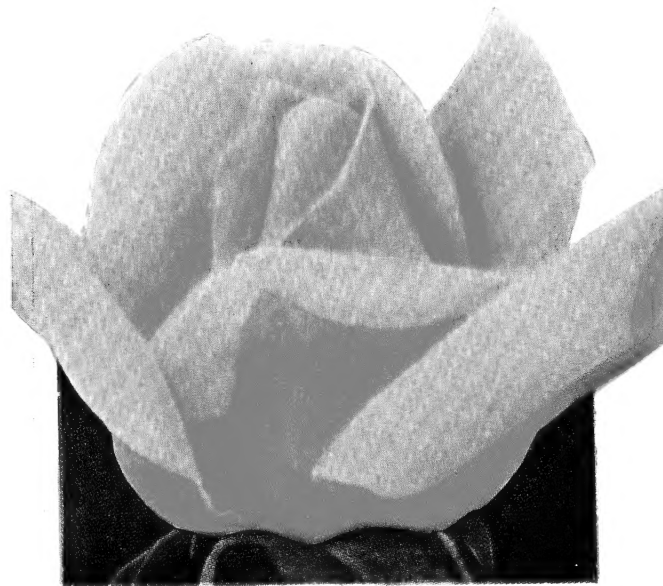

MANDALAY

Good News

Plant Pat. No. 426

Buds of deep coppery pink open slowly to great 60-petaled blooms with a glowing, coppery center, toning to shell-pink on the outer petals. Rich tea fragrance. A vigorous, healthy plant almost continuous in bloom. **\$1.50**

GOOD NEWS

Mandalay

Plant Pat. No. 775

Molten gold forged into appealing, artistic grace. Glorious sunshine compressed into floral elegance. Largest of all yellow Roses, as big as 6 in. across—gigantic beauties! The long, pointed bud unfolds into a very large, high-centered bloom of clear, pure gold which remains gallantly undimmed throughout the life of the flowers. The ample foliage is heavy and very dark green. A hardy, prolific grower. **\$1.50**

FRED EDMUNDS

AARS Fred Edmunds

Plant Pat. Applied For

This Rose is sensational. The beautiful, long-shaped buds of burnt-orange open to glorious, 25-petaled blooms of vivid, glowing, coppery orange color which slowly changes to apricot. Healthy grower with lovely dark green foliage. A more dazzling Rose could not be found to honor Fred Edmunds, the Curator of Portland's International Rose Test Gardens in Washington Park. **\$1.50**

Mme. Plant Pat. No. 129

Cochet-Cochet

From the time of its introduction this lovely Rose has been a continuous success. The long, pointed buds of coppery pink open to large, semi-double, artistic flowers that simply glow with a mass of golden anthers that reflect a golden shade on the inside petals, the whole effect being a coppery pink. Rich honey-like fragrance. **\$1.50**

Hector Deane

Plant Pat. No. 361

A radiant Rose from Ireland. So fragrant is this Rose that a single plant scents the whole garden with true old rose scent. The bud is crimson with a suggestion of orange in the depths, the orange-diffusing as it opens, leaving at the heart only a clear circle of yellow. **\$1.50**

Yosemite

Plant Pat. No. 109

Buds of orange-scarlet in clusters opening to flowers of orange-scarlet suffused carmine on the reverse side. The plant is of vigorous bushy habit and in continual bloom throughout the summer. It is especially beautiful in the spring. **\$1.25**

Taffeta

Plant Pat. No. 716

Taffeta is outstanding because of the richly colored, perfectly formed, long-stemmed buds. You may describe it as rose-pink, salmon, or apricot, but the predominant color is usually a rich carmine-rose in the bud, opening to begonia-rose in the open flower. Has beautifully textured petals, glossy, dark green foliage and is delightfully fragrant. **\$2.00**

**TEN
COSTS
LESS**

You can realize a substantial saving on your purchase of Roses if your order totals 10 or more plants. You may select any assortment of varieties, either bush or climbing, and take the quantity rates which apply on 10 or more plants, as given on page 8. This applies only to mail orders.

TAFFETA

Prima Donna

Plant Pat. No. 639

A beautiful Rose, blooming generously from spring till late fall. The salmon-pink buds unfurl slowly and delightfully to become large, perfectly formed, high-centered, exhibition blooms. When fully open, the pink predominates, delicately touched with buff. Disease resistant plants with dark green foliage withstand sun and heat well. **\$1.50**

Mme.

Plant Pat. No. 337

Henri Guillot

A Rose with an unusual color combination hard to describe. The outside petals are raspberry-pink with an orange base, while the inside of the petals is a red-dish pink. The flower is big and double and very well proportioned. It is a beauty in bud or open flower. The richly fragrant blooms stand on tall, thick stems with lovely large, dark green foliage. **\$1.50**

LOWELL THOMAS

Lowell Thomas

Plant Pat. No. 595

The vibrant lemon-chrome color, vigorous growth and general air of optimism about this glorious new Rose make it suitable to bear the dynamic name "Lowell Thomas." The 25-petaled blooms open from beautiful buds with high-cupped centers, the petals rolling outward to make magnificent, glowing flowers over 4 inches across when fully open. Plants sturdily upright with good foliage. **\$1.50**

Ramon Bach

Plant Pat. No. 366

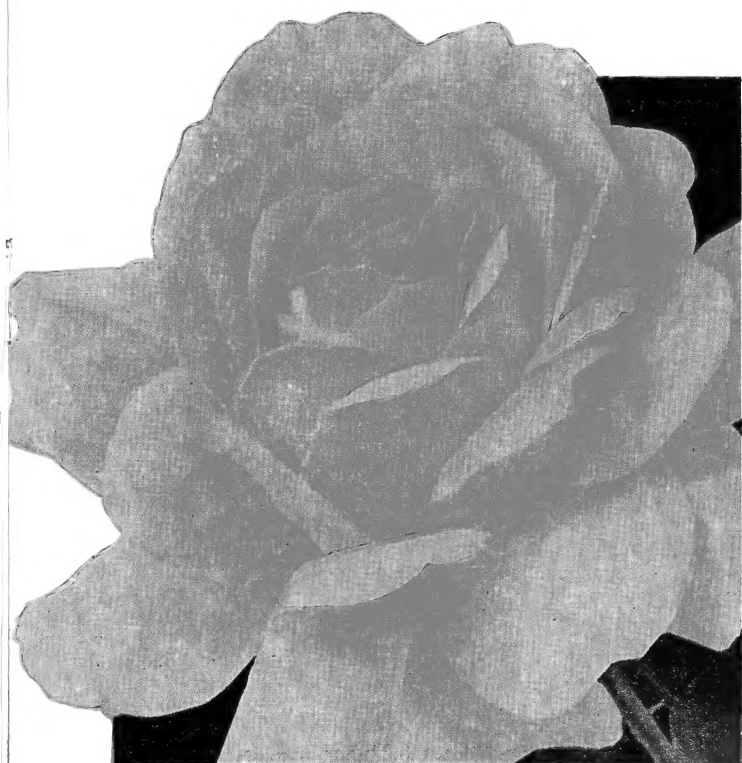

The flowers of this variety are unusually large and full-petaled, coming singly on strong, straight stems and having a fruity fragrance. The opening blooms show a lovely apricot-buff on the back of the petals with a touch of salmon-pink on the inside, the combination making a soft amber-yellow with a luminous glow. **\$1.50**

Charlotte Armstrong

Plant Pat. 455

A charming Rose aristocrat which had top scores in official test gardens of All-America Rose Selections and now has top popularity with home gardeners. Long, slender, rose-red buds open to extra-large blooms of deep glowing rose. A Rose which is always beautiful and does well in all parts of the country. **\$1.50**

RAMON BACH

Crimson Glory

Plant Pat. No. 105

A deep crimson Rose, glorious in its perfect form, its size, and its fragrance. A splendid plant, vigorous and exceptionally resistant to disease. Its large buds of typical urn shape open into full, well formed, delightfully fragrant blooms of a deep, vivid crimson with a velvety nap. Rated as top-ranking standard red Rose in America by the American Rose Society. **\$1.50**

For over 30 years Portland Rose Nursery has been a source of the World's Best Roses.

© J. E. P. CO.

CRIMSON GLORY

Katharine T. Marshall

Plant Pat. No. 607

Named for the wife of Gen. George C. Marshall, this is a magnificent bud, a lovely bloom of warm, glowing, clear pink, with no other shadings. Possesses a rich fruity fragrance, has luxuriant, handsome foliage, and the plants grow tall, strong, and robust with long, straight stems. **\$1.50**

Rose Bampton

Plant Pat. No. 425

This lovely new red Rose, named in honor of the great Metropolitan Opera Star, brings to Rosedom a new shade of red, remarkable for its intense brilliance. The iridescent hue retains its depth throughout the long life of the blooms. Occasionally in early Spring there are two-tone variations between the outer and inner petals. In Summer the flowers are intense red and remain so until frost. **\$1.50**

KATHERINE MARSHALL

Cynthia Brooke

Plant Pat. No. 551

Medium sized, gracefully cupped flowers of perfect design. Rounded bud of salmon-orange turning to pinkish orange as flower develops. Inside is a rich contrasting golden yellow, finishing in buff. Fascinating at all stages, valued for its clean, juicy fragrance and its resistance to disease, heat and rain. Foliage a dark, leathery green. **\$1.50**

Satan

Plant Pat. No. 379

One of the very darkest red Roses — sometimes almost black. Lovely dark buds, opening to double velvety blooms. Leathery dark foliage, bushy grower and good bloomer. **\$1.50**

MARK SULLIVAN

Mark Sullivan

Plant Pat. No. 599

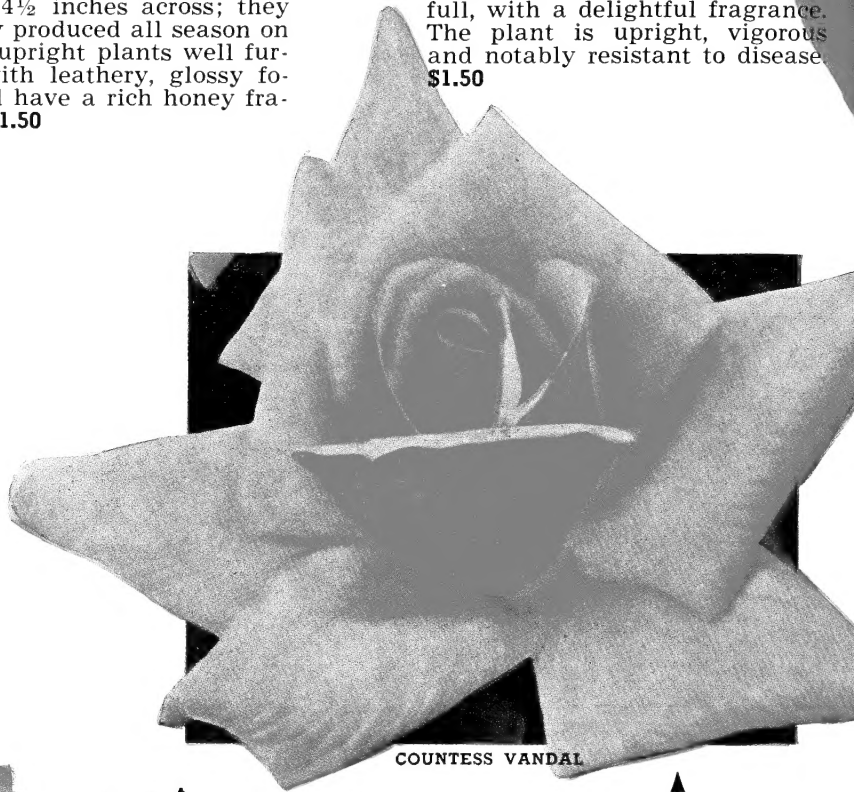

This gorgeously colored Rose is the most outstanding novelty recently introduced. The base color is golden yellow, heavily veined and shaded with deep rose-pink and cerise. The glowing blooms are 4 to 4½ inches across; they are freely produced all season on healthy, upright plants well furnished with leathery, glossy foliage and have a rich honey fragrance. **\$1.50**

Lady Mandeville

Plant Pat. No. 461

Another McGredy masterpiece, superb in color and form. The warm rich yellow, deeply overlaid with amber, is charmingly set off by the reddish tinted foliage. The blooms are large and full, with a delightful fragrance. The plant is upright, vigorous and notably resistant to disease. **\$1.50**

COUNTESS VANDAL

Mary Margaret McBride

Plant Pat. No. 537

A distinguished everblooming Rose beloved from coast to coast—for its own rare beauty and because it bears the name of the gracious "Mary Margaret McBride." A Rose admired particularly for its perfect form. The color is clear, deep coral-pink suffused with shimmering gold at the base of the petals. Its pink glory never fades, despite the hottest weather. **\$1.50**

Countess Vandal

Plant Pat. No. 38

Copper and salmon. A charming Rose, from the first tints of color on the large, long, tapering buds until the flower opens and ages and the petals fall. The streamlined buds are orange-copper and open to perfumed, exquisitely formed blooms of copper, salmon and gold. **\$1.50**

© J. & P. CO.

MARY MARGARET McBRIDE

Sonata

Plant Pat. Applied For

Sonata is the living expression of a great symphony. In Spring and Fall, its buds are cochineal-red—in Summer, a deep lively pink. Foliage is abundant and very dark green. Sonata blooms abundantly and provides a generous supply of cut flowers all Summer long. **\$1.50**

Angels Mateu

Plant Pat. No. 174

Here is one of the most charming of the ever-blooming roses with a color that is really enchanting—a luscious orange-rose, distinct from all others. The flowers with their delicious raspberry fragrance are large and full-petaled. Foliage is a lovely rich green. **\$1.50**

ANGELS MATEU

OREGON GROWN ROSES ARE THE WORLD'S FINEST

ORDER SHEET

- Tear out along this line**

WE NEVER SUBSTITUTE. The demand for some items is so large that certain varieties are sold out early. If we cannot supply any item on your order, may we give you plants of our selection?

YOUR RESPONSIBILITY

When a Rose has been planted, our responsibility as to its growing condition ceases. PLEASE DO NOT ASK TO HAVE A ROSE REPLACED AFTER IT HAS BEEN PLANTED.

QUANTITY RATES

SUGGESTIONS FOR ORDERING

After you receive postcard confirming your order, please do not write regarding it unless you desire some change in items.

SPECIAL NOTICE

Due to floods and very late growing weather, there will be a great shortage of No. 1 grade Oregon grown Roses this fall. Fortunately, our crop was not affected as our fields are in the famous McKenzie River Valley. We expect the demand to be very heavy, so send us your order as early as you possibly can. All orders mailed to us after September 1st should state a second choice; otherwise we will refund for those varieties that are sold out.

ROSE CALENDAR

JANUARY

This is a good month for dormant spray. When we have a few dry days get busy, first pick up and dispose of old leaves from the ground and remove any foliage which persists on the canes. Such leaves are an important source of disease infection. Spray bushes thoroughly with commercial LIQUID lime—sulfur at rate of ONE gallon to EIGHT gallons of water.

FEBRUARY

If bushes have not been given a dormant spray in January they MUST be sprayed the forepart of this month or else spray injury to the new shoots will result. If the buds have started growing before the bushes can be sprayed, decrease the strength of the LIQUID lime—sulfur, using ONE gallon to TEN or TWELVE gallons of water. Around the 15th of the month apply from FOUR to SIX inches of cow manure to the beds.

MARCH

Weather regulates your pruning during this month, it is always safe to prune from the middle of this month to the latter part so that a late frost will not kill premature growth. Spraying or dusting for the control of diseases and insect pests should begin as the first leaves unfold, which will generally take place the latter part of March.

APRIL

It is well to spray or dust the bushes regularly every Ten days. During the latter part of month, a *Special Rose Fertilizer, 6-10-14 formula, should be applied according to directions on package. Water in.

MAY

Spray or dust at regular TEN day intervals. Apply *Special Rose Fertilizer, 6-10-14 formula, according to directions, water in. It is well to give the beds a good watering every week. Hybrid Teas can be disbudded at TWO-THREE-day intervals, leaving only the terminal bud on a shoot.

JUNE

Spray or dust at regular TEN-day intervals. Water beds well at weekly intervals. A mulch of some sort should be applied to the soil during this month if cow manure has not been previously applied to hold moisture.

JULY

Spray or dust at regular TEN-day intervals. DO NOT spray or dust when temperature is above 85 degrees. Water beds at weekly intervals. DO NOT FERTILIZE. During latter part of month cut back some of the more "stocky" canes about SIX inches to stimulate new growth for the fall blooms.

AUGUST

Spray or dust at regular TEN-day intervals. Water, SOAK beds at weekly intervals. DO NOT apply any fertilizer on the bushes during this month or root injury may result.

SEPTEMBER

Spray or dust at FIVE- to SEVEN-day intervals. Failure to spray or dust at regular intervals during this month will allow mildew to get a start and ruin your blooms for the fall bloom. Water, SOAK beds at TWO-week intervals if rainfall for the month is below normal. Apply *Special Rose Fertilizer at weekly intervals, beginning the first week in September.

OCTOBER

Spray or dust at TWO-week intervals, thereby making disease easier to control the following season. No water or fertilizer is needed this month.

NOVEMBER

It is advisable to give your bushes a preliminary pruning or "topping" to minimize possible root damage during high winds and early frost. New roses may be planted this month.

DECEMBER

New roses may be planted from the latter part of November up until May 1st. A winter spray of lime and sulfur may be given if dry weather prevails.

* **Special Rose Fertilizer**—especially prepared chemical formula containing a high percentage of potash which is needed in the Northwest climate to harden new stem growth, also aids in resisting disease. If unable to obtain locally it can be purchased through us. 5 lbs. for \$1.00; 25 lbs. for \$3.75, postpaid.

PLANTING

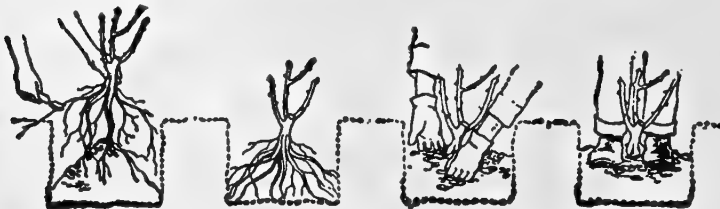

Preparing soil for rose-bed by working manure into the bottom.

Showing the "bud" placed just under the surface when planted.

Keeping the roots in water or thin mud until planted to prevent their getting dry.

DISEASES

Black-spot is an easily recognized enemy of Roses. Burn all leaves showing evidence as soon as you find them. If you spray before this nuisance is likely to appear, you may not be troubled at all.

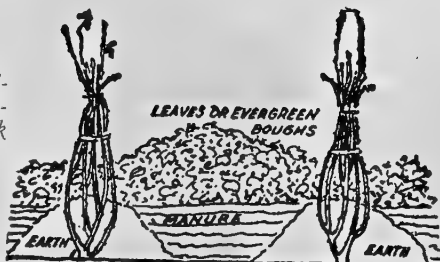

Mildew can be controlled with Bordeaux mixture or sulphur dust which are the standard fungicides for both the diseases illustrated here.

WINTER PROTECTION

Winter protection in cold climates. The tops of newly planted Roses are usually cut back farther than shown here.

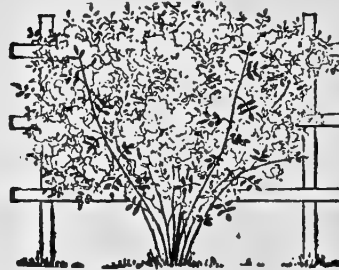

PRUNING

A Hybrid Tea pruned close in spring.

Result of close pruning—low, compact bush, large flowers.

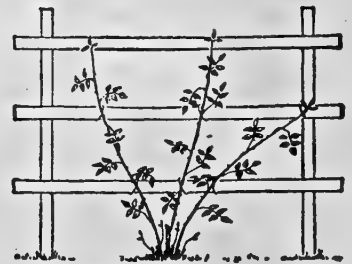

Climber in bloom. Note the new growth.

An established Hybrid Tea Rose pruned high in spring.

The result of high pruning. Note bare legs and tall growth.

After blooming remove wood which bloomed, keeping new growth.

ECLIPSE

Eclipse

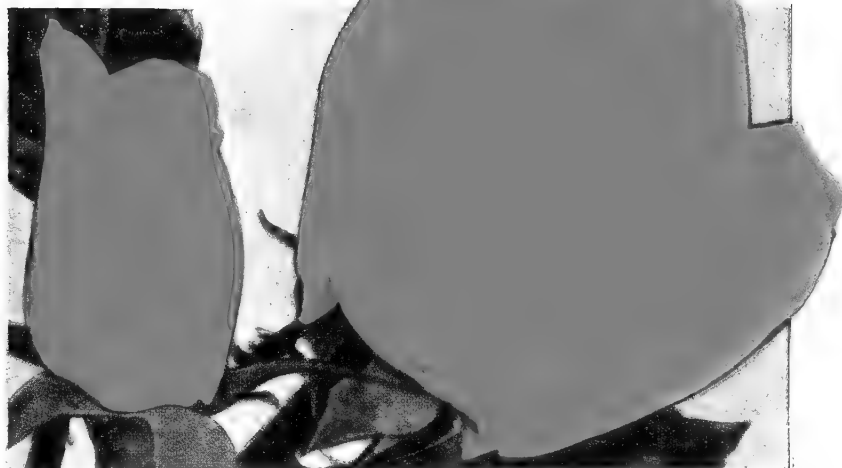

Plant Pat. No. 172

Often called the national favorite yellow Rose, this variety has won many high awards both here and abroad. The large golden buds are beautifully ornamented by long green sepals which extend almost to the tip. The plant is hardy and produces a generous quantity of flowers which are very desirable for cutting purposes. **\$1.50**

Signora

Plant Pat. No. 201

Combines the well-known color combinations of the Talisman and Hoover Roses in new and different tones, producing a Rose of compelling warmth. Buds brownish orange, opening to lighter mandarin and salmon, with gold base. **\$1.50**

© J. & P. CO.

SIGNORA

Fantasia

Plant Pat. No. 590

A bright golden yellow Rose. Dainty and graceful and with the gay quality of its fairy-tale name. It has a delightful wild-rose fragrance and is one of the most prolific bloomers of the yellow varieties. The plant is bushy, vigorous, resistant to disease, drought and heat. The Rose keeps well after cutting, makes exquisite corsages and bouquets. **\$1.50**

Golden Harvest

Plant Pat. Applied For

This is a clear golden yellow Rose that blooms so profusely that one really gets a golden harvest from each bush. The rich fragrant blooms are exceptionally large and retain their color until the petals fall. **\$1.50**

Gloaming

Plant Pat. No. 131

The large, firm salmon-pink buds are particularly lovely in their half-opened stage. In full bloom, the Rose is a very unusual shade of pink, overlaid with tones of orange. The plant is exceptionally strong and vigorous and produces its large Roses on erect stems. A superb cut-flower variety with a sweet fragrance. **\$1.50**

Dickson's Red

Plant Pat. No. 376

A rich scarlet Rose that holds its thrilling color until the petals fall. It is beautifully formed and has a fine perfume. The plant is vigorous; blooms generously and the foliage is excellent. **\$1.50**

Glowing Sunset

Plant Pat. No. 104

Well named—its blooms do glow as a sunset. Beautiful buds on long stems, opening to golden yellow with touches of creme and pink. Has fragrance, vigor, good foliage and habit to commend it. **\$1.50**

Horace

McFarland

Plant Pat. No. 730

A Rose of beautiful exhibition form and glorious color. Deep apricot-colored buds open to rich buff-salmon which changes slowly to a pleasing coral-pink. The flowers are large, 40 to 45 petals which are also large, firm and long lasting. Strong stems hold the long, tapered buds firmly upright, well above the leathery foliage, making it an excellent variety for cutting. Plant of medium height; flowers spicily fragrant. **\$1.50**

GREER GARSON

Greer Garson

Plant Pat. No. 781

A deep true pink, this lovely Rose lives up to the beauty and splendid performance of the actress for whom it is named. The large pointed bud unfolds beautifully to an exhibition form Rose, a fine pink with brilliant yellow at the heart. It is long stemmed and has a fruity fragrance. The sturdy plant carries waxy, dark green disease-resistant foliage. **\$1.50**

DICKSON'S RED

STANDARD

Ami Quinard

Black-lustered red. From dainty buds of deep maroon, ideal for boutonnières, a beautiful urn-shaped flower unfolds, with damask fragrance. The petals are like shining crimson velvet enriched with a blackish sheen. A center of golden anthers is in rich contrast to the dark, velvety petals. Fragrant and very free in bloom. **\$1.10**

Autumn

Burnt-orange, red, orange and pink, this Rose was named for the glowing colors of autumn. The straight buds of deep burnt-orange open to 3-inch very double, fragrant flowers. Close-growing, free blooming plants with dark, glossy foliage. **\$1.10**

Christopher Stone

The glowing, brilliant crimson-scarlet flowers with deeper shadings never have a trace of blue and do not fade in the hottest sun. Such vivid color ranks Christopher Stone as one of the finest of red Roses. A continuous bloomer, the long-lasting blooms have good substance and a spicy fragrance. **\$1.10**

Duquessa De Penaranda

A very staunch variety, one of the earliest to bloom in the spring. The Rose is unique in color, a rich orange bud opening to a golden apricot bloom. Very double, fragrant and long-lasting. Successive bloomer, upright grower and clean, bright foliage. **\$1.10**

Editor McFarland

Large double blooms of even glowing pink with slight suffusion of yellow and a paler edge. Vigorous bushy, upright grower and a continuous bloomer. One of the old stand-bys. **\$1.10**

E. G. Hill

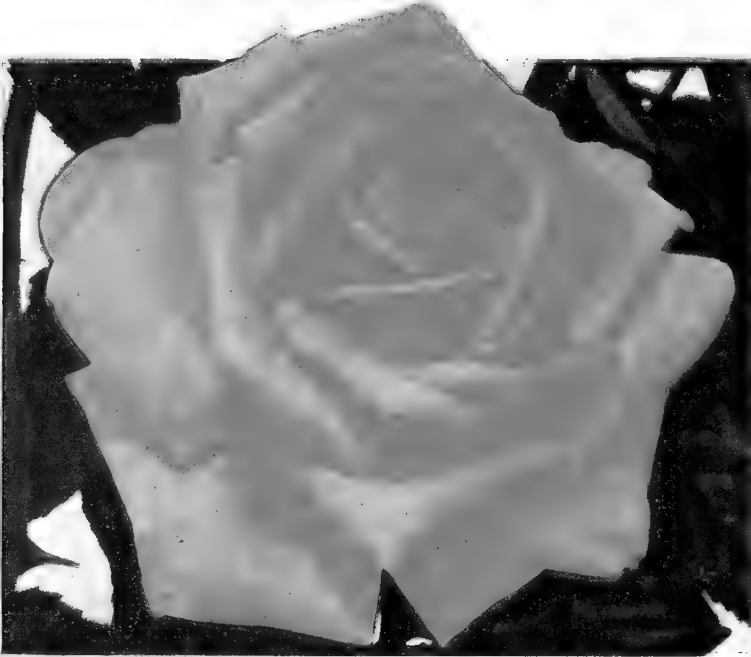

Always popular. This Rose is a dazzling scarlet, getting darker as it opens. Flowers are borne on long stems and are very fragrant. Its free blooming habit and long lasting qualities keep it right up at the head of the good red Roses. **\$1.10**

Etoile de France

Like the Star of Holland, this Star of France is an unexcelled fragrant red Rose, of deep rich crimson with a long bud, holding its beauty as it opens. Bushy, upright growing plant with leathery foliage. **\$1.10**

Etoile de Hollande

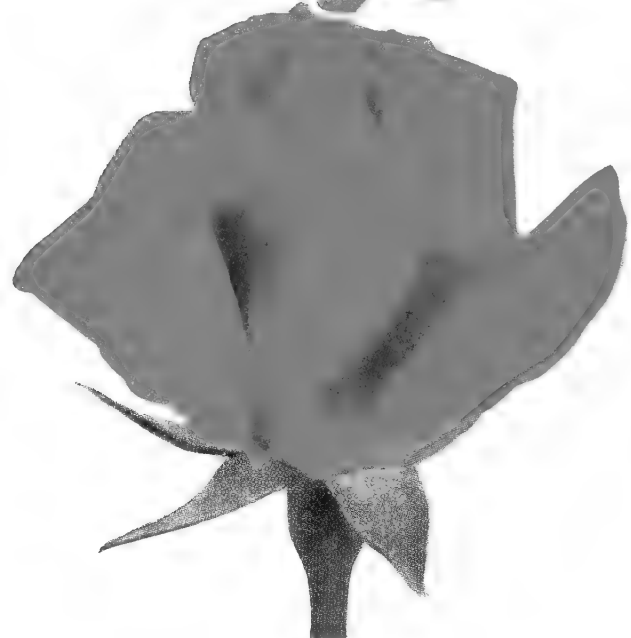

A sweet-scented red Rose that is world famous. Strong and sturdy, it thrives everywhere. It is a brilliant crimson, with fine oval buds that open slowly into exquisitely shaped blooms. The color is unfading through summer's heat but in the early fall the Rose takes on an even darker, more velvety lustre. The plant produces many fine blooms throughout the season and is quite resistant to mildew. **\$1.10**

LADY MANDEVILLE (See description on page 6)

PEARL S. BUCK (See description on page 3)

HECTOR DEANE (See description on page 4)

McGREDY'S SALMON (See description on page 3)

BUSH ROSES

Feu Joseph

Looymans

Long, beautifully formed buds of apricot, opening to very large, double, cupped blooms of Indian yellow. A good bloomer and vigorous, with glossy green mildew-resistant foliage. **\$1.10**

Frau Karl Druschki

One of the most popular whites ever grown, this hardy perpetual is hard to beat. Immense long buds, opening to full pure white flowers of wax-like texture. Very healthy, vigorous plants, always blooming. **\$1.10**

Hinrich Gaede

Large and bold, ruddy-orange in color, this is a spectacular beauty. The nasturtium red bud, long and pointed, opens into a large double flower of a glowing orange-scarlet. The fragrance is very pleasing. The stems are long and strong, the leaves dark green and glossy. The plant is strongly resistant to disease and blooms freely. **\$1.10**

Joanna Hill

Exceptionally fine for cutting. The buds are a creamy orange-yellow, long and pointed, and open to beautifully formed flowers of a delicate apricot shade, paling to cream yellow at the outer edges. Long strong stems and good foliage. **\$1.10**

K. A. Victoria

This ivory-white rose has long been a favorite, both here and abroad. It produces quantities of long shapely buds which open into creamy-white Roses with a touch of yellow in the center. Delightfully scented, vigorous, and one of the best white Roses for cutting. **\$1.10**

McGredy's Ivory

An immense ivory white Rose that has a wonderful fragrance. The long, symmetrical buds open very gradually to the large very double flower, with 45 petals. The foliage is dark and glossy. This variety does well in all climates. **\$1.10**

McGredy's Scarlet

In a moist climate, as in Ireland where it was named, the flowers are scarlet. In other climates this Rose is not scarlet, but red, a rose-red, and one of the best. The buds are well formed and open slowly to magnificent, large double long-lasting blooms. Foliage is rich green and glossy. **\$1.10**

Mme. Jules Bouche

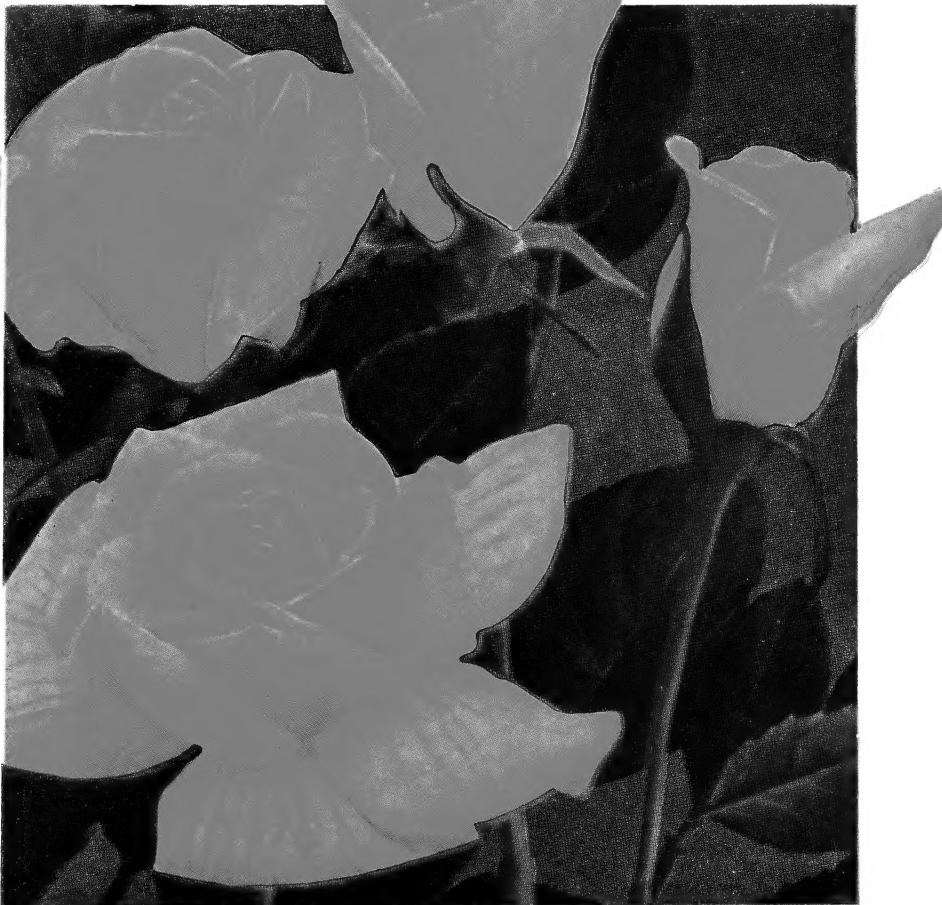

Large, exquisitely-formed buds of creamy white open with a dainty flush of pink in the center of the flower. The sweet-scented white blooms come singly on vigorous plants. **\$1.10**

CHARLOTTE ARMSTRONG (See description on page 5)

SONATA (See description on page 6)

FANTASIA (See description on page 11)

McGredy's Yellow

The buds are buttercup yellow, beautifully formed. The Rose is less golden when fully opened, assuming a clear, clean unfading yellow. Cup-shaped, the flower holds a cluster of golden anthers at its center. Robust and free-flowering, with bright green holly-like foliage. A consistent prize winner. **\$1.10**

Mme. Ed. Herriott

A famous Rose, still one of the best of the orange and pink multi-colored varieties. The brilliant coppery orange buds open into soft coral blooms. The Rose blooms freely on the exceptionally vigorous plant and appears early in the season. **\$1.10**

Mrs. E. P. Thom

A lemon yellow rose, unstained by any other color. One of the best yellow garden Roses because of its pure, unfading color, sweet fragrance and the profusion of the blooms. The bud is well-formed and opens into a very double Rose with 43 petals. Bronze green foliage is in fine contrast to the yellow Rose. **\$1.10**

Mrs. P. S. DuPont

This yellow Rose has justly earned great popularity. The golden yellow bud opens beautifully, showing delicate orange tints at its depth. The Rose is very double and has a fine spicy fragrance. It is at the front rank among yellow garden Roses. **\$1.10**

Mrs. Sam McGredy

Copper and pink, red and orange are the colors of this lovely Rose. In bud it is predominantly scarlet and orange, the open bloom is a coppery pink. This Rose has a distinctly "sweet-briar" fragrance. Stems and leaves are bright bronze-green so that the plant is colorful even when it is not blooming. **\$1.10**

Picture

A Rose of medium size but exquisite form. Every bloom is a "picture." The color is a rich pink with warm undertones of salmon which make the color cheerful and glowing. The plant is strong and vigorous and produces one continuous burst of bloom after another all through the season. **\$1.10**

Pres. Herbert Hoover

One of the finest Roses grown, delightfully fragrant and always dependable. It is multi-colored, ranging through many shades of apricot, pink, cerise and creamy yellow. Buds and open flowers are large and borne singly on strong straight stems from upright, vigorous plants. **\$1.10**

Roslyn

Magnificent blooms of golden yellow with the back of the petals deep orange. Buds are long pointed and open to mildly fragrant semi-double flowers on vigorous, compact plants. **\$1.10**

Southport

One of the finest red Roses introduced in recent years. Color is bright red, with a hint of gold at the heart of the bloom. Has a spicy fragrance all its own. Vigorous grower and continuous bloomer. **\$1.10**

Talisman

This is, truly, the queen among Roses, for it is known and loved everywhere. The colors are vivid contrasts of gold, rose-pink and carmine. **\$1.10**

The Doctor

Long pointed buds of exquisite silvery pink open to enormous blooms of the same uniform color, with a fragrance so intense that it can be detected many yards away. **\$1.25**

SMILES

FLORIBUNDA AND SINGLE ROSES

Donald Prior

Plant Pat. No. 377

Immense clusters of large single, very bright red flowers make this one of the outstanding Floribundas. A very sturdy, vigorous grower that needs no special care or attention. It is never out of bloom. **\$1.25**

© J. & P. CO.

DONALD PRIOR

Pinocchio

Plant Pat. No. 484

Continuous-blooming plants grow 20 to 24 inches in height and provide quantities of exquisitely lovely, full petaled blooms of salmon-pink flushed with gold from tiny buds of rich salmon. As a border plant, Pinocchio is charming. **\$1.25**

Floradora

The gayest Floribunda of them all. It is spectacular, constantly in bloom and an entirely new shade in Roses—a brilliant cinnabar-red, as arresting under artificial light as in the garden. No matter where they are, Floradora blooms are always the eye catchers. **\$1.25**

Permanent Wave

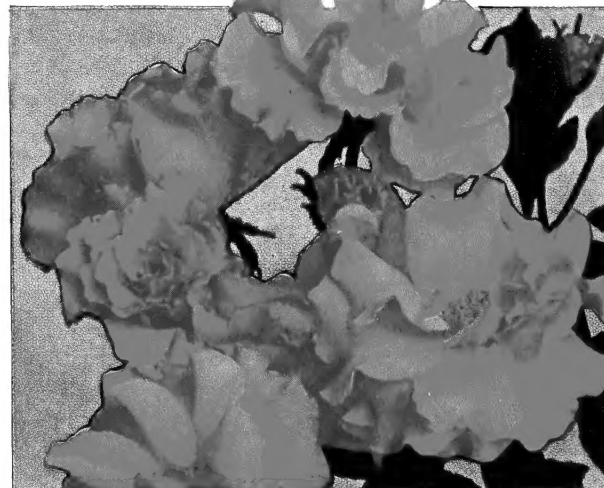

Plant Pat. No. 107

Unique, bronzy, cochineal-carmine buds, in clusters of six or more, open to semi-double blooms of rich rose-pink. The petal edges are delightfully waved and fluted even in the buds, and stay crisp and fresh in all kinds of weather. **\$1.25**

Smiles ↑

Plant Pat. No. 331

Clusters of these salmon-pink Roses smile upon your garden from early Spring to late frost. The exquisite coral-pink buds open to dainty 3-inch, semi-double flowers in gorgeous clusters. Plants about 18 inches, of spreading growth. Foliage is a shiny dark green. **\$1.25**

PERMANENT WAVE

Cecile Brunner

The vigorous bush is covered throughout the season with dainty salmon-pink buds and miniature blooms in huge clusters. The Baby Rose that Grandmother knew. **\$1.10**

Dainty Bess

Dainty indeed, in form, color and delicate Wild-Rose fragrance. The greatest charm of this Rose is the mass of long, wine-red stamens which contrast with the soft blush-pink petals. Single, it has no rival. **\$1.10**

Innocence

Well named for its pure beauty, the long ivory buds open to great stiff-petaled flowers 4 to 6 inches across. A beautiful single white with soft rose shaded stamens. **\$1.10**

Irish Elegance

Long, beautiful buds of apricot, opening into a single flower. **\$1.10**

Irish Fireflame

Brilliant orange-red buds, single apricot flowers; gorgeous red-bronze tones on young foliage. **\$1.10**

Isabel

Flowers single and of a rich flushed orange-scarlet changing to brilliant pink and copper with pure yellow centers. The Wild-Rose loveliness of Isabel makes it extremely popular. **\$1.10**

Karen Poulsen

A very brilliant unfading scarlet. Large, single flowers borne in clusters on strong upright growth. A very showy variety. **\$1.10**

Lulu

A Rose that offers you everything you could wish in the way of buds for cutting. Dainty streamlined buds of coral apricot that carry the utmost of beauty and symmetry in every crisp cool petal. Semi-double. **\$1.10**

Perle d'Or

A tiny sweetheart Rose like Cecile Brunner with a lovely soft copper bud opening to coral-pink. Vigorous grower and always blooming. **\$1.10**

Red Ripples

Plant Pat. Pending

A vivid Christmas red Floribunda that will give you a mass of brilliant, singing red color all through the blooming season until all other Roses are gone in the fall. The 2½ inch flowers form ruffled rosettes that are soft and velvety with firm petals, standing heat without burning or changing color. Tall growing, upright and vigorous, it is a sensation as a hedge. **\$1.25**

Rita Sammons

Another small pink sweetheart Rose, but a deeper pink, holding its color much longer than Cecile Brunner. **\$1.10**

Snowbank

Plant Pat. No. 279

New low-growing Floribunda that's always in bloom. Buds buff-orange, opening to semi-double blush-white flowers turning pure white. Borne in large clusters and long lasting. **\$1.25**

CLIMBING ROSES

Cl. City of York

Plant Pat. Pending

A new white climber with distinctive qualities, making it a most welcome addition to its class. It is hardy, strong growing, able to cover a large area, and has an abundance of clean shining foliage. A solid mass of bloom in May and June from buff cream buds to 3-inch semi-double fragrant flowers of creamy white. **\$1.50**

Cl. High Noon

Plant Pat. No. 704

All the concentrated essence of brilliant sunshine at midday is displayed in the lovely clear shining yellow buds of this extraordinary Climber or Pillar Rose. Each luxuriant, bushy plant produces a large crop of long stemmed buds throughout the entire growing season. Grows to 8 feet. Recommended for mild climates and Pacific Coast only. **\$2.50**

Cl. King Midas

Plant Pat. No. 586

Golden yellow double blooms from buds of golden yellow flushed with red. Vigorous in growth and richly clothed from the ground up with dark green, leathery foliage — a beautiful foil for the slightly fragrant yellow blooms. **\$1.50**

Cl. Mrs. E. P. Thom

A yellow Rose, pure and unfading in color; this climber produces an even greater quantity of blooms than the popular bush variety. The buds and open Roses are finely modeled, their golden color heightened by the dark green foliage. **\$1.25**

Cl. Flash

Plant Pat. No. 396

A luminous orange-scarlet with the backs of the petals yellow, suffused with scarlet; center gleaming yellow and filled with golden anthers. Buds yellow, with scarlet suffusion. **\$1.25**

Cl. June Morn

Plant Pat. No. 375

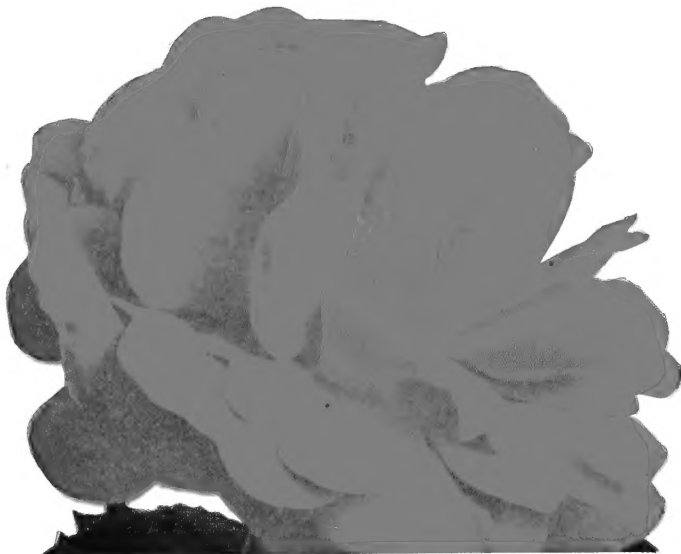

Five-inch, double flowers, deep rosy-red on the inside of the petals and gold on the outside. These appear in great profusion in many flowered clusters during two generous blooming periods in spring and fall. **\$1.50**

Cl. Summer

Snow

Plant Pat. No. 400

Loosely double, 2-inch blooms of sparkling white in large clusters cover the plant in June. Repeat blooms in summer and fall. Very few thorns. The flowers occasionally have a faint blush when first open in cool weather. **\$1.50**

CL. FLASH

© J. & P. CO.

CL. SUMMER SNOW

Cl. Pauls Scarlet

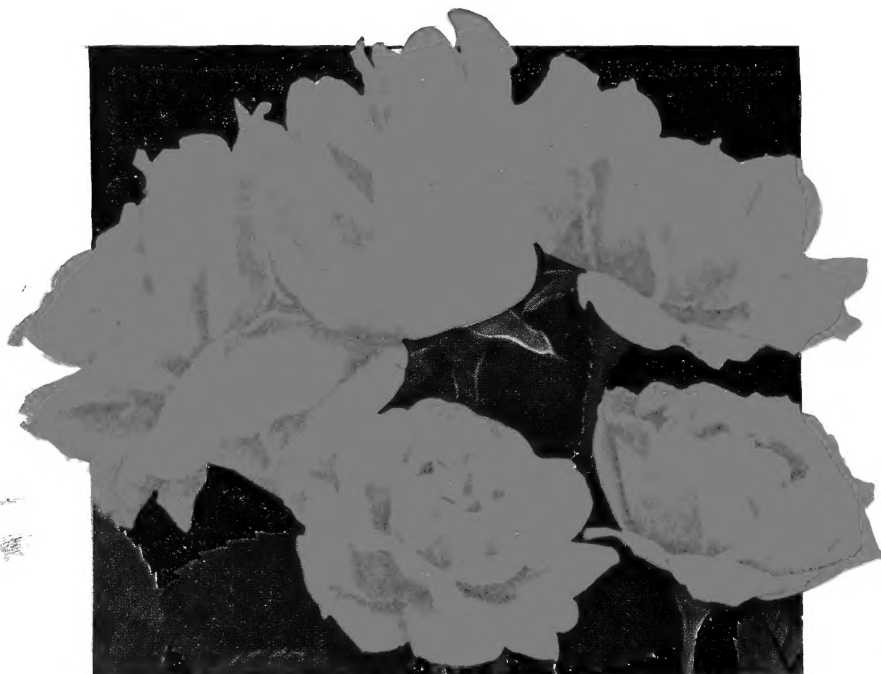

No Rose has given more delight than this very popular scarlet climber. In bloom it flaunts a great mass of bright red Roses that cover the branching canes from top to bottom. The semi-double Roses are borne in clusters of from 3 to 20 flowers. Excellent for pillars and fences. Very hardy. Blooms gloriously in the spring and frequently in the fall. **\$1.25**

Cl. Talisman

This climber produces flowers that are as splendid as the bush variety of Talisman. The Roses are truly brilliant in their tones of yellow, coppery-pink and red. The stems are long and very desirable for cutting. A fence or trellis covered with climbing Talisman is breath-takingly beautiful. **\$1.25**

Cl. Pres. Hoover

This climber bears the multi-colored Roses and has all the fine qualities of the bush variety bearing the same name. The color of each Rose ranges through shades of apricot, pink, cerise and creamy yellow. Buds and flowers are perfectly formed and the plant is a very strong, extensive climber. **\$1.25**

Cl. Blaze

Plant Pat. No. 10

This brilliant red Rose resembles Paul's Scarlet Climber in growth and bloom. The blazing color holds well even in hot sun, and the gorgeous show continues for weeks in June. Under favorable conditions it produces intermittent flowers later in the season. **\$1.50**

Cl. Picture

Plant Pat. No. 524

You will get hundreds of beautiful, long-stemmed, perfectly formed buds on this climber every year. Each flower is a "perfect picture" in clear rose-pink with warm salmon undertones, enchantingly fragrant. **\$2.00**
